Engineering Intelligence for a Smarter World

IoT THEMES	AI THEMES
01 Atmospheric Quality Surveillance System 	01 Renewable Energy Estimation of Daily Yield Solar Power 
02 Automated Water Extraction Mechanism 	02 HVAC Systems Estimation of Prices 
03 Intelligent Vehicle Parking Management System 	03 Computational Fluid Dynamics Two-Phase Mixing Tank 
04 Power Utilization Optimization System 	

Sponsored by
MAQ International

 **Wednesday
Nov 27, 2024**  **01:30 PM -
04:00 PM**  **Dept. of Mechanical
Engineering**

Organised by **Intelligent Mechanical Engineering Systems Lab**

The 3rd AI & IoT Exhibition at NED University's Mechanical Engineering Department showcased student innovation and technical excellence. The event was proudly supported by MAQ International. (November, 2024)
