

Industrial Visit to Pakistan Cables Ltd. 2022

A student visit to Pakistan Cables Ltd. was organized by the Department of Mechanical Engineering on 15-12-2022.

Pakistan Cables Limited is known as a pioneer in the cable industry due to its long history, expertise, and dedication to providing top-quality products and services to its customers both locally and internationally. Founded in 1953 as a joint venture with British Insulated Callender's Cables (BICC), Pakistan Cables is the oldest and most reputable cable manufacturer in the country. Over the past six decades, it has established itself as a market leader.

As the only cable manufacturer in Pakistan listed on the Pakistan Stock Exchange, the company is known for its commitment to ethics and business excellence. From 2010 to 2017, it was affiliated with General Cable, a leading cable company based in the United States.

Pakistan Cables is certified with ISO 9001:2015, ISO 14001:2015, and OHSAS 18001:2007 standards. Many of its cables have been tested by the KEMA Laboratory in the Netherlands, and the company holds eight KEMA Gold Type-test certificates.

Thanks to its partnerships with international cable manufacturers, Pakistan Cables has improved its technical support, introduced new technology, adopted best management practices, found procurement advantages, and developed export opportunities. Today, Pakistan Cables is respected for its heritage, expertise, and commitment to consistently delivering high-quality products and services.
